Town of Goffstown
Drawdown of Piscataquog River

Please be advised that Consolidated Hydro of New Hampshire, Inc. intends to begin a drawdown of the Piscataquog River upstream of the Kelly's Falls Hydroelectric Project to perform dam related maintenance. This drawdown is scheduled to begin **September 29, 2014 for the duration of 5 days**. Once the work is complete the river will be returned to its normal operating level.

For more information please contact Ross Holland, Environmental Specialist at Consolidated Hydro New Hampshire, Inc. at (978) 513-3415 or email: Ross.Holland@Enel.com
