

MAST ROAD INTERSECTIONS WORKSHOP

The Town of Goffstown is conducting a study of the two Route 13 / Route 114 Village intersections. These intersections have received Congestion Mitigation and Air Quality (CMAQ) Grant Funding for the scope of work which looks to improve safety along the corridor, reduce congestion, and calm traffic. This workshop provides a forum for residents, business owners, and commuters to view the Alternatives developed, weigh in, and ask questions about them.
