**Form to Accompany Applications for Building Permits
For Demolition Purposes**

A thorough inspection must be conducted for the presence of asbestos-containing building materials prior to any building being demolished. A person accredited in the identification of asbestos-containing materials must conduct the inspection. A copy of the inspection report must accompany the Building Permit Application for demolition purposes.

Building to be demolished can only be destroyed after the following utilities have been disconnected and Asbestos Demo Notification Form has been completed. Please have each company initial and date according to the disconnection of the service:

	DATE	AUTHORIZED BY
Sewer	_____	_____
Water	_____	_____
Electricity	_____	_____
Telephone	_____	_____
Cable TV	_____	_____
Gas Co.	_____	_____
Rec. Asbestos Demo Notification Form		_____
