

At the 2014 Town Meeting voters passed a petition article to develop a plan to provide reliable, affordable, and handicapped-accessible transportation to town residents unable to drive themselves to necessary appointments. ♦♦ The Board of Selectmen has decided to form an ad hoc Transportation Committee to develop such a plan. The committee will consist of nine to eleven members including petitioners, a selectman, budget committee member, member of the disabled community and residents. The committee is expected to file a final report including the plan with the Board of Selectmen by Sept. 1, 2014 and committee will exist through the 2015 Town Meeting. If you would like to be appointed as a member of this committee, please complete a volunteer application form by April 24, 2014 and submit to the Administration Office at Goffstown Town Hall or go online and complete the interactive volunteer application which can be found at <http://goffstown.com/committee-vacancies/Volunteer-Application/committees/committee-volunteer-application.html>. ♦♦ The Board of Selectmen will appoint members at their meeting on April 28, 2014.
