The Town of Goffstown Emergency Management has teamed up with the New Hampshire Department of Homeland Security and Emergency Management to offer a comprehensive emergency notification system to the residents and visitors of Goffstown.

The new system is called NH Alerts. It is a FREE public safety alerting system that can effectively alert, inform, and affect lives in Goffstown and throughout the state of New Hampshire by providing important emergency information that could save lives.

NH Alerts delivers free emergency community and missing person notices generated by local and state emergency officials. These alerts can be sent throughout the entire state or to specific geographic areas to notify only those persons who may be immediately affected by a local emergency. Examples of emergency alerts may include lockdown notices, viral outbreaks, chemical spills, evacuations, and active shooter situations.

Goffstown residents can sign up for NH Alerts by going to: 

<https://public.coderedweb.com/CNE/BFC2664C2B92>

Android Devices: NH Alerts is also available as a free App on your Android devices. Visit the Google Play Store and search NH Alerts.

Or scan this QR Code: 

Or click link below: [Google Play](https://play.google.com/store/apps/details?id=com.ecnetwork.nhma)

iOS Devices: NH Alerts is available as a free App on your iOS devices. Visit the Apple Store and search NH Alerts.

Or scan this QR Code: 

Or click link below: [Apple Store](https://itunes.apple.com/us/app/nh-alerts/id930501217?mt=8)

The NH Alert App also can alert users to various weather alerts impacting the area.

If you have any questions regarding NH Alerts, please contact Richard O'Brien, Goffstown Emergency Management Director at 603-497-3619.
